

# PROGRAM SCHEDULE

FRIDAY, November 18, 2022

## Refresher Course for Family Physician Anesthetists

TIME	PRESENTATION TITLE	SPEAKER	ROOM
5:00pm	Registration Opens   Dinner Buffet Available   Visit the Exhibitors!		Cordova Foyer
5:25pm	<b>Welcome &amp; Opening Remarks</b>	<b>Dr. John McAlpine</b> <i>Anesthesiologist, Lions Gate Hospital, North Vancouver, BC</i>	Cordova Ballroom SALON A
5:30pm	<b>The Emergency Difficult Airway: A challenging airway case from a deep space infection of the neck</b> <ul style="list-style-type: none"><li>Develop an approach to airway capture in the patient with deep space neck infection</li><li>Develop an approach to topicalization for awake intubations</li><li>Identify considerations for rural transport and the decision to intubate pre- or post- transport</li></ul>	<b>Dr. Andrew Stanley</b> <i>FP-Anesthetist, Prince Rupert Regional Hospital, Prince Rupert, BC</i>  <b>Dr. John Veall</b> <i>Anesthesiologist &amp; Acute Care Specialist, Vancouver General Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
6:15pm	<b>Accidental Hypothermia: Building the chain of survival</b> <ul style="list-style-type: none"><li>Provide a case-based update on the identification, triage, transport and management of accidental hypothermia patients.</li><li>Accurately stage, triage and manage accidental hypothermia patients based on the vital signs and level of consciousness</li><li>Identify which cold patients in cardiac arrest are unlikely to benefit from resuscitation and which patients may benefit from prolonged resuscitation and rewarming</li><li>Select the appropriate warming technique and treatment facility for hypothermic patients</li><li>Understand the BC Hypothermia Clinical Practice Guideline and explore the potential for guidelines to improve patient outcomes</li></ul>	<b>Dr. Doug Brown</b> <i>Emergency Specialist, Royal Columbian Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
7:00pm	<b>Challenging Ventilation: A difficult case of suspected bronchospasm</b> <ul style="list-style-type: none"><li>List a differential diagnosis for post-intubation bronchospasm</li><li>Have an approach to ventilator strategies to manage bronchospasm</li><li>List the medications we can use in the OR to manage bronchospasm</li></ul>	<b>Dr. Jyoti Seshia</b> <i>FP-Anesthetist &amp; Locum, Canmore, AB</i>  <b>Dr. Rob Fingland</b> <i>Anesthesiologist and Critical Care Physician, Lions Gate Hospital, North Vancouver, BC</i>	Cordova Ballroom SALON A
7:45pm	<b>Closing Remarks   End of Day One</b>		

SATURDAY, November 19, 2022

TIME	PRESENTATION TITLE	SPEAKER	ROOM
8:00am	Registration Opens   Breakfast Available   Visit the Exhibitors!		Cordova Foyer
8:30am	<b>Welcome &amp; Opening Remarks</b>	<b>Dr. Kirk McCarroll</b> <i>FP-Anesthetist, Queen Victoria Hospital, Revelstoke, BC</i>	Cordova Ballroom SALON A
8:35am	<b>Optimal Preoperative Management of Patients with Hip Fracture: Evidence and Benefits of Regional Anesthesia</b> <ul style="list-style-type: none"><li>Review recent evidence around perioperative hip fracture management</li><li>Discuss benefits of various regional anesthesia techniques for hip fractures</li><li>Explain some of the challenges faced by managing pre-op hip fractures</li></ul>	<b>Dr. Trina Montemurro</b> <i>Anesthesiologist, Providence Health Care, Vancouver, BC</i>	Cordova Ballroom SALON A
9:15am	<b>Periop Challenges in Morbid Obesity: BMI Thresholds for Community Hospitals</b> <ul style="list-style-type: none"><li>How to anticipate anatomic challenges of obesity for anesthesia and know how to manage them</li><li>How to anticipate pathophysiologic challenges of obesity and know how to manage them</li></ul>	<b>Dr. Mark Vu</b> <i>Anesthesiologist &amp; Trauma Physician, Victoria General Hospital &amp; Royal Jubilee Hospital, Victoria, BC</i>	Cordova Ballroom SALON A

SATURDAY, November 19, 2022 ... continued

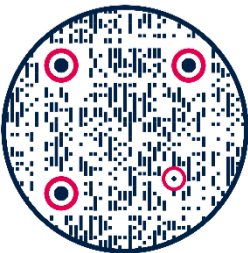

TIME	PRESENTATION TITLE	SPEAKER	ROOM
9:55am	<b>Risky Business: What Makes a Patient Too High Risk for Your Site?</b> <ul style="list-style-type: none"><li>Identify environmental factors that lead to high-risk situations.</li><li>Identify selected patient factors that place them at high risk.</li><li>Determine when elective surgery is safe following: a) COVID infection, b) Stroke, and c) Myocardial Infarction.</li></ul>	<b>Dr. Ron Ree</b> <i>Cardiac Anesthesiologist, St. Paul's Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
10:35am	25-MIN COFFEE & NETWORKING BREAK   Visit the Exhibitors!		Cordova Foyer
11:00am	<b><u>CONCURRENT WORKSHOPS — ROTATION 1:</u></b> <i>*Check the back of your name badge for your workshop selection!</i>		
A1)	<b>Getting the Most Out of Your Ventilator: Strategies for Difficult Ventilation/Oxygenation</b> <ul style="list-style-type: none"><li>Review the most recent evidence regarding optimum operating room ventilation</li><li>Examine how to optimize postoperative ventilation</li><li>Review how to utilize recruitment maneuvers in the operating room</li></ul>	<b>Dr. Rob Fingland</b> <i>Anesthesiologist and Critical Care Specialist, Lions Gate Hospital, North Vancouver, BC</i>	Cordova Ballroom SALON A
B1)	<b>Rural Ultrasound: Level-up Your Practice!</b> <ul style="list-style-type: none"><li>Review actual rural cases, examining the impact of bedside ultrasound on patient prognosis and disposition</li><li>Understand how bedside ultrasound can be a game-changer in acute patient presentations in resource-limited settings</li></ul>	<b>Dr. Jonathan Wallace</b> <i>FP-Anesthetist, FP-Emergency Medicine, and Rural Ultrasound Fellowship, Rockyview County, AB</i>	Cordova Ballroom SALON D
C1)	<b>Essential Ultrasound–Guided Nerve Blocks for FPAs</b> <ul style="list-style-type: none"><li>Demonstrate a variety of essential Ultrasound Guided Regional Anesthetic Techniques, including interscalene, axillary, femoral, adductor canal, popliteal sciatic, ankle blocks, and more</li><li>Accommodate live-scanning opportunities for registrants to practice techniques with supervision and one-on-one feedback from instructors</li><li>Discuss common indications for techniques demonstrated, as well as important pitfalls, risks, and practical tips for success</li></ul>	<b>Dr. Chris Prabhakar</b> <i>Anesthesiologist and Regional Anesthesia &amp; Acute Pain Medicine Specialist, St Paul's and Mount St Joseph's Hospitals, Vancouver, BC</i>	Cordova Ballroom SALON E
D1)	<b>Universal Video Laryngoscopy: A Practical Argument for Why the Time has Come</b> <ul style="list-style-type: none"><li>Briefly review the arguments for universal video laryngoscopy</li><li>Review practical examples of the benefits of video laryngoscopy including some scenarios where there has been a reluctance to consider video laryngoscopy</li><li>Rotate attendees through mini-simulations, including: massive aspiration, nasal intubation, hybrid intubation for complex anatomy, awake intubation, and trainee coaching</li><li>Reinforce the spectrum of video laryngoscopy and associated techniques</li></ul>	<b>Dr. John Veall</b> <i>Anesthesiologist &amp; Acute Care Specialist, Vancouver General Hospital, Vancouver, BC</i>	Cordova Ballroom SALON F
E1)	<b>Clinical Dilemmas in OB Anesthesia</b> <ul style="list-style-type: none"><li>Review current controversies in obstetric anesthesia that may have an impact on clinical practice</li><li>Discuss clinical dilemmas encountered in obstetric anesthesia with examples of how to manage them</li></ul>	<b>Dr. Anton Chau</b> <i>Obstetric Anesthesiologist, BC Women's and St. Paul's Hospitals, Vancouver, BC</i>	Cordova Ballroom SALON C
12:00pm	60-MIN LUNCH BREAK   Visit the Exhibitors!		Cordova Foyer
1:00pm	<b><u>CONCURRENT WORKSHOPS — ROTATION 2:</u></b> <i>*Check the back of your name badge for your workshop selection!</i>		
A2)	<b>Getting the Most Out of Your Ventilator: Strategies for Difficult Ventilation/Oxygenation</b> <i>*workshop repeats – see above for description</i>	<b>Dr. Rob Fingland</b>	Cordova Ballroom SALON A
B2)	<b>Rural Ultrasound: Level-up Your Practice!</b> <i>*workshop repeats – see above for description</i>	<b>Dr. Jonathan Wallace</b>	Cordova Ballroom SALON D
C2)	<b>Essential Ultrasound–Guided Nerve Blocks for FPAs</b> <i>*workshop repeats – see above for description</i>	<b>Dr. Chris Prabhakar</b>	Cordova Ballroom SALON E

SATURDAY, November 19, 2022 ... continued

TIME	PRESENTATION TITLE	SPEAKER	ROOM
1:00pm	<b><u>CONCURRENT WORKSHOPS — ROTATION 2:</u></b>		
D2)	<b>Universal Video Laryngoscopy: Why the Time has Come</b> <i>*workshop repeats – see above for description</i>	<b>Dr. John Veall</b>	Cordova Ballroom SALON F
E2)	<b>Procedures in Pain Medicine</b> <ul style="list-style-type: none"><li>• Provide an overview of existing common pain management procedures that can be done in the community</li><li>• Review what's new in interventional pain therapies</li><li>• Demonstrate the best and safest ultrasound-guided procedures to start doing in practice, including sphenopalatine ganglion block, shoulder/hip/knee joint, ESP block, and TAP block</li></ul>	<b>Dr. Sydney Van Wyk</b> <i>FP-Anesthetist &amp; Pain Medicine Fellowship, Williams Lake, BC</i>	Cordova Ballroom SALON C
2:00pm	TRAVEL TO MAIN LECTURE HALL FOR CLOSING PLENARY		
2:05pm	<b>Troubleshooting the Labour Epidural: Placement and Management Strategies</b> <ul style="list-style-type: none"><li>• Review patient positioning and technique strategies for the challenging spine including use of ultrasound and dural puncture epidurals</li><li>• Identify a menu of epidural medications that will effectively manage the majority of labour epidurals</li><li>• Identify the labour epidural that will/will not convert to surgical anesthesia and develop a safe strategy for epidural top-ups</li></ul>	<b>Dr. Roanne Preston</b> <i>Obstetric Anesthesiologist &amp; Chair, UBC Dept of Anesthesiology, Vancouver, BC</i>	Cordova Ballroom SALON A
2:45pm	<b>Closing Remarks   End of Day Two</b>		

SUNDAY, November 20, 2022

TIME	PRESENTATION TITLE	SPEAKER	ROOM
8:00am	Registration Opens   Hot Breakfast Available   Visit the Exhibitors!		Cordova Foyer
8:30am	<b>Pediatric Anesthesia Pearls</b> <ul style="list-style-type: none"><li>• Discuss the management of a sick neonatal intubation</li><li>• Identify best approaches to managing the child with an URTI peri-operatively</li></ul>	<b>Dr. Zoe Brown</b> <i>Pediatric Anesthesiologist, BC Children's Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
9:10am	<b>Managing Severe Hemorrhage in Communities with Limited Blood Products</b> <ul style="list-style-type: none"><li>• Identify top priorities for managing bleeding patients in resource limited settings</li><li>• Understand the role of factor concentrates in bleeding patients</li><li>• Identify useful resources for building a site-specific Massive Hemorrhage Protocol</li></ul>	<b>Dr. Jacqueline Trudeau</b> <i>Anesthesiologist &amp; Medical Director of the Perioperative Blood Mgmt Program, Vancouver General Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
9:50am	<b>Frailty Assessment and Postoperative Outcomes after Surgery: Applications for Anesthetic Practice</b> <ul style="list-style-type: none"><li>• Distinguish between different models used to identify and measure frailty</li><li>• Use frailty assessments to predict postoperative outcomes</li><li>• Evaluate interventions to improve outcomes in frail surgical patients</li></ul>	<b>Dr. Alana Flexman</b> <i>Anesthesiologist &amp; Director of Research, St. Paul's Hospital, Vancouver, BC</i>	Cordova Ballroom SALON A
10:30am	<b>Take Home Points &amp; Closing Remarks</b>	<b>Dr. John McAlpine</b>	
10:45am	<b>CONFERENCE ENDS</b> <i>*Please complete and return your evaluation forms to the registration desk. Safe travels home!</i>
