Cannabis Education for Health Care Providers Toolkit

With the recent legalization of cannabis, health providers are increasingly approached by patients for information on recreational and medical cannabis.

On this page, you will find resources and clinical tools such as a cannabis flowchart, evidence summaries, a sample prescription, and a webinar recording.

Please visit our eLearning course Cannabis Education for Health Care Providers to learn more about recreational and medical cannabis, including legal status, types of cannabis, benefits and risks, and evidence-based recommendations.
