

PRA-BC Online Reporting System

All Clinical Field Assessment (CFA) forms will be completed and submitted through PRA-BC's Online Assessment Forms system.

The Online Assessment Forms system allows assessors and candidates the ability to access, complete, and submit assessment information from across electronic devices. Click on the link below to access sample assessment forms where you can review the forms in detail:

Preparing for the 12-week CFA:

1. You will receive, by email, your login credentials and URL link prior to the start of the Fall 2026 Clinical Field Assessment (CFA), between September 21 – 25, 2026.
2. We will also provide information and recommended steps to ensure all physicians involved in the assessment have the information they need to access the online system, complete, and submit the required assessment forms.

The CFA dates are September 28, 2026 – December 18, 2026. The first week of the CFA (September 28 – October 2, 2026) is the orientation period. Assessors are expected to orient candidates to their practices, services available in the community, and to any services outside the community as needed.

For each candidate, a minimum number of assessment forms overall must be completed and submitted by the end of week 12 to ensure adherence to PRA-BC evaluation policies. For your reference, included is the Fall 2026 reporting schedule, which:

- lists specific forms and minimum number of submissions for each form per week
- ensures you meet minimum reporting requirements per week
- is integrated within the online system

You will start submitting assessment forms in week 2.

If you have any questions regarding the Online Assessment Forms system, please contact the Assessment Team at prabcassessments@prabc.ca.
