

CONSULTATION TO CONVERSATION (C2C)

The Real-Time Virtual Support (RTVS) Consultation to Conversation (C2C) program, created by the Rural Coordination Centre of BC (RCCbc), aims to enhance healthcare services in rural, remote and Indigenous communities across British Columbia by leveraging virtual care technology.

Through C2C, specialists connect virtually with patients and their rural primary care providers and/or nurse practitioners to collaboratively address the patients' healthcare needs.

Key Benefits:

- **Patient-Centered Care:** Access to specialized healthcare without the need to travel.
- **Cost & Risk Reduction:** Minimizes travel-related expenses and risks.
- **Real-Time Collaboration:** Facilitates communication and coordination among healthcare providers.
- **Knowledge Sharing:** Encourages continuous learning and sharing of expertise among medical professionals.

Specialties involved:

- **Cardiology** - available only for clinics in Northern Health
- **Internal Medicine**
- **Pediatrics**
- **Psychiatry** - Diagnostic assessment for adult ADHD only (including comorbidity with depression, anxiety, and/or PTSD)
- **Rheumatology**
- **Infectious Disease** (HIV, Hep B and C, skin & soft tissue infections, vaccine & vaccine questions) - available only for clinics in Northern Health and Island Health regions
- **SCI-Nav** (Spinal Cord Injury Navigation- physiatry)
