

The Enhanced Simulation of Critical Care and Perioperative Emergencies (ESCAPE) Course

12.0
MAINPRO+

FOR YOUR
Rural
PRACTICE

The ESCAPE Course is a customizable, high fidelity simulation program, designed and delivered by family practice anesthesiologists, that focuses on building team dynamics to optimize crisis resource management in the rural perioperative setting.

Scenarios discussed in the course vary based on local needs. Each community submits desired topics to instructors based on difficult cases they have experienced locally.

See reverse for details.

Who should attend the course?

Family practice anesthesiologists (FPAs), ER physicians, nurses, and teams who work in rural communities

How does this program work?

Submit desired topics to instructors based on difficult, local cases your team has experienced

Pricing

Based on customizations (contact us for details)

Certification

This group learning program has been certified by the College of Family Physicians of Canada for up to 12.0 Mainpro+ credits

Interested in bringing the ESCAPE course to your community?
