UBC RURAL ROUNDS Morning Videoconference Series

SEP 2019-JUN 2020

MONTHLY • THU 8-9 AM (PDT/PST)

WHAT IS RURAL ROUNDS?

The Rural Rounds series aims to provide relevant, up to date and rurally specific CME in your community. Speakers either live and work in rural areas of BC, or possess an understanding of the unique circumstances of the rural health care provider.

The format includes case-based presentations with many opportunities for questions and discussion. Audience participation is encouraged!

NEW THIS YEAR!

This year, in addition to bringing you Rural Rounds on rurally-relevant hot topics, for the first time we are also teaming up with intensivists for virtual sim cases. Participants will learn from critical care specialists who have a passion for supporting their rural colleagues - view and review rural case simulations, discuss real cases and gain skills to apply in your practice. Highly interactive and engaging case simulations for you - by you!

Registration by hospital site (\$150 per session; discount for early registration).
