**Message from the Chair and Vice-Chair of the Research and Scientific Program Committee**

We are delighted to welcome you to the vibrant city of Toronto for the 34th Annual Conference of the Canadian Academy of Child and Adolescent Psychiatry.

Children and adolescents spend about one-third of their day in school, and concerns about classroom behaviour or academic performance are often what motivates assessment and treatment by a child’s mental health specialist. In addition, the field of child and adolescent psychiatry in Canada is currently experiencing a steep learning curve, as the first Royal College examination in the subspecialty was administered one year ago, and the recently accredited training programs are working hard to design curricula and clinical rotations for the next generation of child and adolescent psychiatrists. It is therefore timely that the overall theme for this year’s conference is “Learning and Education in Child Psychiatry: Crib to Classroom to Clinic.”

We have an outstanding line-up of keynote speakers who will focus on learning at multiple levels, from how infants learn during the first months of life, to the influence of school environments on children’s mental health, to approaches for educating medical students and residents. As always, the program also includes excellent submitted presentations on a wide variety of topics in child and adolescent psychiatry, so even if education is not your main focus, opportunities to learn will still abound. Finally, we look forward once again to popular social events such as the Resident and Faculty Cinq-à-Sept and the President’s Reception. After all, you know what they say about all school and no play!

Message from the Local Arrangements Team

It gives me great pleasure to welcome everyone to Toronto and to the 34th Annual Conference of the Canadian Academy of Child and Adolescent Psychiatry!

We will be holding the conference in the stunning Westin Harbour Castle in downtown Toronto. Of course, Toronto is such a vibrant metropolis with a limitless variety of experiences: world-class shopping, a never-ending array of festivals and events, award-winning restaurants, and an amazing arts and culture scene. Don’t forget its envious lakeside setting with parks, beaches and plenty to offer for those outdoor enthusiasts. The Local Arrangements Committee of John Teshima, Greg Lodé, Senna Grewal and Pier Bryden are working hard on developing this year’s 2014 Play Therapy Guide, which will highlight all the best that Toronto has to offer. Toronto is truly a world-class city, and we can’t wait to show it off!

Once again I would like to warmly welcome everyone to this year’s conference in Toronto, and I hope you all have a chance to enjoy the city.

Dr. Raj Rasasingham
Chair of the Local Arrangements Committee
