

# 20th Canadian Collaborative Mental Health Care Conference

**13.0**

MOC SECTION 1  
MAINPRO+

MAY 10-11, 2019  
FRI-SAT

SHERATON VANCOUVER AIRPORT HOTEL  
RICHMOND BC

## WHO SHOULD ATTEND

Interprofessional/intersectoral teams, family physicians and other primary care providers, mental health care providers, psychiatrists and psychologists, administrators and policy makers, other health disciplines working with primary care and/or community care, consumers and family members, educators and their students, and researchers.

## CONFERENCE GOAL AND LEARNING OBJECTIVES

*Enhance knowledge about interprofessional collaborative practice in mental health, and in particular...*

- Illustrate the value of meaningful engagement of people with lived experience in the design, evaluation and improvement of care services, and in the development of a "culture of collaboration"
- Exchange knowledge related to collaborative practice in mental health to support replication and successful implementation of innovative and impactful programs ('evidence-based practice')
- Promote the participatory generation of new knowledge by engaging clinician-innovators, service users and others to evaluate and improve programs in practice ('practice-based evidence' and quality improvement)
- Facilitate dialogue between the various stakeholders who have a key role to play in advancing integrated and collaborative mental health care, including clinicians, service users and carers, policymakers and researchers

## ABOUT THE CONFERENCE

The Canadian Collaborative Mental Health Care Conference aims to advance collaborative practice in mental health care in primary care and community settings. Our scope includes intra and interprofessional collaboration, as well as collaboration with clients and caregivers. We value multiple forms of knowledge and 'evidence' including scientific knowledge, pragmatic knowledge of front line healthcare providers and administrators, and experiential knowledge of people using mental health services, and throughout the conference we seek to promote dialogue between these different perspectives.

## 2019 THEME: CONCURRENT DISORDERS

This year our conference theme addresses concurrent disorders and working collaboratively to enhance care for people living with mental health challenges & addictions. A concurrent disorder is defined as having both a mental health issue and an addiction issue at the same time. Traditionally our health systems have separated mental illness and addiction and therefore two treatment streams have emerged. We now recognize that these two "streams" are intimately tied together and we need to address our clients and families in a holistic way seamlessly collaborating across disciplines, organizations and cultures. North America is facing an opioid crisis and more than ever, we need to work together to understand the underpinnings of concurrent disorders and their impacts on patients, families and communities, create collaborative health care systems and embrace innovation.

## ACCREDITATION

The University of British Columbia Division of Continuing Professional Development (UBC CPD) is fully accredited by the Committee on Accreditation of Continuing Medical Education (CACME) to provide study credits for continuing medical education for physicians. This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and has been approved by UBC CPD for up to **13.0 MOC Section 1** Group Learning credits. This program meets the certification criteria of the College of Family Physicians of Canada and has been certified by UBC CPD for up to **13.0 Mainpro+** Group Learning credits. Each physician should claim only those credits accrued through participation in the activity.

## EVALUATION TRACK & QUALITY IMPROVEMENT TRACK

The Evaluation and Quality Improvement track is designed to provide training on planning and conducting rigorous research, quality improvement, and program evaluation in real-world health care settings. These presentations will provide practical knowledge, skills and examples of how to evaluate and improve upon a clinical program or innovation. Interested attendees can receive a certificate of completion by attending two or more sessions in the Evaluation and Quality Improvement track. This may be useful to those who wish to demonstrate they are building their knowledge and skills in this area. *Sign in at the sessions is required if you wish to receive a certificate.*

## WORKS IN PROGRESS (WIPS) SESSIONS

Works in Progress (WIPs) presenters are clinical innovators advancing collaborative mental health care models. WIPs is a newer format at the conference, introduced to provide presenters with an opportunity for feedback on evaluation of their innovation. It's common for clinician innovators to struggle with the design and implementation of an evaluation. The overall educational goal of the WIPs format is to use these projects as learning cases about how to conduct an evaluation that can contribute to generalizable knowledge. Presenters will provide a brief overview of their work and designated Coaches will provide educational points about evaluation that will be of wide interest to attendees. Attendees will have opportunities to ask questions and share their experiences.

*Thank you to our Coaches:*

**Jodi Polaha, Ph.D.** Associate Professor, Department of Family Medicine at East Tennessee State University.

Dr. Polaha has worked in collaborative care for twenty years and has significant experience with engaging practical studies in real-world settings. She has expertise in Dissemination and Implementation Science. She is a Co-Editor (with Dr. Nadiya Sunderji) for the journal Families, Systems, & Health.

**Jennifer S. Funderburk, Ph.D.** Clinical Research Psychologist, VA Center for Integrated Healthcare; Adjunct Associate Professor Syracuse University; Adjunct Associate Professor University of Rochester. Dr. Funderburk has been conducting research on integrated care for over fifteen years, with a special emphasis on the implementation of integrated healthcare as well as brief interventions integrated providers can use within the primary care setting.

## OUR 2019 KEYNOTE PRESENTERS

**Patricia Conrod, PhD.** Professor at the Université of Montréal, Department of Psychiatry. Dr. Conrod first developed and tested the personality-targeted approach to treating substance use problems at McGill University in Montreal.

**Anna Ratzliff, MD, PhD.** A national expert on collaborative care and specifically on training teams to implement and deliver mental health treatment in primary care settings. She currently is an Associate Professor in the Department of Psychiatry and Behavioral Sciences at the University of Washington.

**Debbie Sesula, MA, RTC, CPS, CPSM.** A coordinator for North Shore Peer Support Program, North Vancouver, BC. She has over 20 years of experience in peer support ranging from peer support worker, researcher, developer/coordinator of programs and designer/trainer of peer support trainings.

**Cornelia (Nel) Wieman, MD, FRCPC.** President of the Indigenous Physicians Association of Canada. She is Canada's first female Indigenous psychiatrist (Anishnawbe – Little Grand Rapids First Nation, Manitoba). Dr. Wieman is also a Senior Medical Officer, Mental Health & Wellness, in the First Nations Health Authority in BC.

**Evan Wood, MD, PhD, ABIM, FASAM, FRCPC, ABAM Diplomate.** Director of the British Columbia Centre on Substance Use in Vancouver. He is also a professor of medicine at the University of British Columbia, where he helps lead the university's efforts in the area of addiction prevention and treatment through a Tier 1 Canada Research Chair.

## VENUE & ACCOMMODATION

Sheraton Vancouver Airport Hotel  
7551 Westminster Hwy  
Richmond British Columbia V6X1A3  
Canada  
[www.sheratonvancouverairport.com](http://www.sheratonvancouverairport.com)

Special conference rates starting at \$199 CDN per night are offered to conference attendees. If calling please reference the group code **CE09AD** or else use the special hotel booking link below to register online. In order to take advantage of the special conference rate, reservations must be made by 5PM PST on April 9, 2019.
