Don’t miss this educational conference designed for practitioners that deal with the management of disorders in pregnant patients. This accredited event will provide a focused, expert review of common medical conditions in pregnancy and will provide practical strategies for their management. Resources and clinical guidelines will be highlighted to support decision making.

WHO SHOULD ATTEND
All those interested in advancing knowledge in the care of women with complex medical disorders including obstetricians, family physicians, perinatologists, internists and subspecialists, obstetric anesthesiologists, midwives, maternity nurses, nurse practitioners, residents and students.

LEARNING OBJECTIVES
After this event, participants will be able to:
- Describe common medical conditions in pregnancy
- Employ practical strategies for their management
- Appraise recent evidence, resources and clinical guidelines to support skilled decision making
### SAT  APR 22
