ST. PAUL'S EMERGENCY MEDICINE UPDATE

SEP 28 - OCT 1, 2017
THU-SUN

THE WHISTLER CONFERENCE CENTRE
WHISTLER, BC

WHO SHOULD ATTEND

Anyone who is providing Emergency Care:

- Rural to Urban
- Residents to Seasoned Veterans
- Part-time to Full-time
- Emergency Nurses and Paramedics

Join us for the 15th Annual St. Paul's Emergency Medicine Update - guaranteed to be more exciting than having free HBO! Four incredible days of learning, networking and of course, recreation!

KEYNOTE LECTURES

- *Annual Literature Review*, Grant Innes, University of Calgary
- *Trauma*, Kenji Inaba, USC Keck School of Medicine, Los Angeles, CA
- *HIV Treatment as Prevention: A Made in BC Strategy to End the AIDS Pandemic*, Julio Montaner, BC Centre for Excellence in HIV/AIDS
- *It's A Job That's Easy to Love/Hate*, Robert Orman, St Charles Medical Center, Bend, OR

SEP 25-28: PRE-CONFERENCE COURSES, VANCOUVER & WHISTLER

The EDE 1 Course (VANCOUVER)

One day course, offered twice:
Sep 25 (Mon) **OR** Sep 26 (Tues), 0800-1800
St. Paul's Hospital, Vancouver
MAX: 16 participants per course
Registration & information: edecourse.com

EDE is Canada's premier Point-of-Care ultrasound course, endorsed by the Canadian Point-of-Care Ultrasound Society (CPoCUS); it now INCLUDES thoracic applications mandated by CPoCUS for CORE certification, allowing graduates to enter the CPoCUS IP certification pathway. The EDE course has been taught over 900 times to over 12,000 Canadian physicians. It is the standard of care in large trauma centers, remote settings and Canadian Forces combat units. EDE has continually evolved as via insight into the way beginners learn this skill. Participants will learn to detect pericardial effusions, intra-abdominal hemorrhage, early intra-uterine pregnancies, pneumothoraces, pleural effusions and AAA's. All EDE didactic material is all on-line; read the text and watch the lectures at your own pace. Missed something in a lecture? No problem. Just stop, rewind and watch again. This provides 25% more hands-on time during the course.

MOC SECTION 3
MAINPRO+

Fees:

Physicians: \$1795
Residents & Allied Health: \$1350

CASTED: Emergency 'Hands-On' Orthopedics Course (WHISTLER)

Two day course
Sep 27 & 28 (Wed-Thu), 0800-1730
Whistler Conference Centre, Whistler
MAX: 36 participants
Registration & information: casted.ca/schedule

CASTED: Emergency is being offered as a 2 day course. CASTED, the 'hands-on' ED orthopedics course, has been presented over 250 times across Canada. Numerous clinical pearls are offered on assessment, special x-rays to consider, subtle clues to recognize 'red flag' patients and knowing who needs a reduction. Get comprehensive 'hands-on' instruction - then practice various reduction, immobilization, and moulding techniques. A detailed physical exam is reviewed for the various joints. CASTED is focused on clinically relevant teaching points. We want you to understand ED ortho - not just memorize it! By the end of the course, you will have significantly increased confidence and skills for use on your next shift!

Fees: +GST

Physicians: \$1965
Nurses & PA: \$1545
Residents: \$1275

SEMP: Simulated Emergency Medicine Procedures (VANCOUVER)

One day course
Sep 27 (Wed), 0800-1630
CESEI, VGH, Vancouver
MAX: 24 participants
Registration: part of conference registration

When was the last time you put in a chest tube or performed an emergency surgical airway? Would you like to learn to place central lines more safely using Ultrasound guidance? The SEMP course is designed to allow health care providers to acquire, review, and practice their skills in essential life-saving emergency procedures. Skills gained: Needle Cricothyrotomy and transtracheal jet ventilation; Open Cricothyrotomy; Needle Thoracostomy; Chest Tube insertion; Intraosseous Vascular access in Adults & Children; Pericardiocentesis; Central line Vascular access, landmark technique; Ultrasound-guided Central line vascular access; Crisis Resource Management; Strategies to Reduce Cognitive Errors.

MOC SECTION 3
MAINPRO+

Fees:

\$945 by Aug 15
\$1195 after Aug 15

The EDE 2 Course (NORTH VAN)

1 day live course, 1 day online, offered twice
Live sessions: Sep 26 (Tues) **OR** 27 (Wed),
Lions Gate Hospital, North Vancouver
MAX: 20 participants
Registration: You must be registered to for SPH2017 & request a spot by July 17; your spot is not guaranteed. You will not be charged until your spot is confirmed.
More information: ede2course.com
Manual: Essentials of Point-of-Care Ultrasound available in print or ebook (reduced price)

Retaining the principles of the EDE 1 course, EDE 2 sticks to the essentials-emphasis on learning image generation and safely incorporating POCUS into clinical practice. Day1: complete cutting edge & interactive online modules using a computer, iPad, or other tablet. Go through the materials at your own pace on your own time as often as you like. Read text, click on audio clips, review live images, u/s illustrations & images, watch live & u/s videos, identify structures, and indicate whether a scan is positive or negative, answer pop quizzes or perform an activity with immediate feedback. Day2 (live): scans, mini-lectures &/or demos on how to scan.

Fees:

Physicians: \$2275
Residents & Allied Health: \$1975

CAEP AIME: Airway Interventions and Management in Emergencies (WHISTLER)

One day course, offered twice:
Sep 27 (Wed) **OR** Sep 28 (Thu)
0800-1800, Breakfast @ 0730
Whistler Conference Centre, Whistler
MAX: 24 participants per course
Registration: part of conference registration

The AIME course has been providing valued and practical hands-on airway management learning experiences for clinicians around the world for over 14 years. AIME educators are experienced (and entertaining) clinical instructors who know the varied work environments of practicing clinicians. Program highlights include: case-based clinical decision making; new practical algorithms; when, why & how to perform awake or rapid sequence intubation; textbook/manual based on the AIME program; unique, customized clinical videos; clinician to instructor ratio of 5/6:1.

The SHOCK Course (WHISTLER)

One day course
Sep 28 (Thu), 0800-1630
Whistler Conference Centre, Whistler
MAX: 16 participants (12 MDs, 4 residents)
Registration: part of conference registration

This course is a one-day, hands-on workshop designed for rural emergency healthcare teams. Participants will review management of the hemodynamically unstable patient and discuss the specific steps that must be taken in the workup and treatment of these patients. It is a case-based course that is interactive, with lots of hands-on time practicing with ultrasound, as well as central line insertion and management. Instructors are all rural physicians and nurses with experience in critical care. Improve your treatment of the types of shock that can be successfully treated in the rural emergency room. Apply early goal directed therapy for sepsis in your community ER. Become confident in placing central venous catheters and intraosseous needles. Learn the many ways that ultrasound can help you in your practice.
