

Lead

Practice & Quality Improvement

Quality improvement is a systematic approach to making changes that create better outcomes, experiences, and processes.

Practice improvement is using QI approaches, practice-level data, and best-practices to continually improve care.

WHAT DOES THIS MEAN FOR OUR LEARNERS?

AIMS

What are you trying to accomplish?

CHANGES

What changes can you make?

MEASUREMENT

Is a change is an improvement?

Empowering continuous learning and practice improvement.

Continuously **Learn & Improve**

What does being a learning organization mean?

- ▲ Cherish an open and empowering culture
- ▲ Design and implement feedback loops
- ▲ Promote personal mastery
- ▲ Plan for intelligent fast failure
- ▲ Steal best practices
- ▲ Cultivate a common vision

WHAT DOES THIS MEAN FOR UBC CPD?

Improving the project debrief process, updating resources to support supervisor check-ins, encouraging self-reflection, informal monthly journal clubs, and more to come.

Empowering continuous learning and practice improvement.

Research at CPD

UBC CPD's Research Program aims to:

- ▲ Build staff capacity in research and evaluation methodologies
- ▲ Contribute to CPD literature through publications and conference abstracts
- ▲ Build a culture of scholarship

BY THE NUMBERS

In 2018 & 2019, UBC CPD presented at a myriad of provincial and national conferences including the Annual Conference of Canadian Evaluation Society, the BCPSQC Quality Forum, the Canadian Conference on Medical Education, the CHES Celebration of Scholarship, Digital Media in Education, and the Diversity in Medicine Conference.
